

Airl serves me as a resident by providing wondrful music about gods word and love reminding me that there is hope in this world.

If Airl was displaced it would put a damper in the hearts of christians. People are beginning to believe in god through this station and we need it to help spread gods word.

I believe Airl is in the public interest because it is wonderful in this day and age with all the crime etc to be able to listen to christian music. It's touching peoples hearts and helping them believe. Don't take that away.
